A FIREX® INFORMATIONAL GUIDE

THIS ISSUE

LED INDICATOR GUIDE

Item number: 4518

Model number: ADC

This FireX® smoke alarm features separate red and green LED indicators. The LEDs indicate the following:

GREEN LED	
ON	AC power is present
OFF	AC power is not present
RED LED (can be seen through the Push-to-Test button)	
Blinks once a minute	Indicates normal operation.
Blinks once a second	Local Alarm – Smoke alarm senses smoke and simultaneously sounds an audible alarm.
Blinks once every 10 seconds	Hush Mode – Smoke alarm is quieting an unwanted alarm (False Alarm Control).
Blinks 3 times per minute	Latching LED – The unit alarmed since the last time the TEST button was pressed. Reset the function by pressing the TEST button.
OFF (interconnected systems only)	Remote Alarm – Another smoke alarm in the network has sensed smoke and is signaling this alarm.

Item numbers: 4618 and 5000

Model number: FADC

Model FADC features two LEDs that shine through a single clear light guide. The following section explains what condition the LED indicators describe:

Constant GREEN on	AC power is present
GREEN is off	AC power is not present
RED blinks once every 40 seconds	Standby: Periodic testing for presence of good battery.
RED blinks once a second	Local Alarm – Smoke alarm senses smoke and simultaneously sounds an audible alarm.
RED blinks once every 10 seconds	Hush Mode – Smoke alarm is quieting an unwanted alarm (False Alarm Control).
RED blinks 3 times per minute	Latching LED – The unit alarmed since the last time the TEST button was pressed. Reset the function by pressing the TEST button.
RED is off (interconnected systems only)	Remote Alarm – Another smoke alarm in the network has sensed smoke and is signaling this alarm.
